

THIS AGREEMENT, made this
19th day of March, 1963,
by and between the STATE OF
ARIZONA acting by and through
its STATE HIGHWAY ENGINEER,
thereunto duly authorized,
hereinafter designated STATE,
and the City of Globe
acting by and through its
Manager, thereunto
duly authorized, hereinafter
designated City.

FILE REFERENCE:

ROUTE 115 60

MP 250.99 to MP

District 7

RECITALS:

For the safety and protection of the traveling public, it is
necessary and desirable that the traffic signals and intersectional lighting
be installed on the State Highway System at the intersection of Hill
Street and Sycamore Street, in the City of Globe,
and

WHEREAS, the parties hereto for their mutual benefit desire to
cooperate in the installation and maintenance of the said traffic signals
each in the manner hereinafter stated, and

WHEREAS, funds have been provided and set aside by the State under
AFE 70460 to defray the State's share of the cost of the work and the
City has verbally agreed, through its Manager, to
provide for its share of the work, and

WHEREAS, an estimate of the cost of the work is as follows:

State's share	\$ 8,200.00
City's Share	4,100.00
TOTAL Estimated Cost	\$ 12,300.00

and,

WHEREAS, it is the desire of the parties hereto to proceed with the
work and set out in writing their understandings and agreements pursuant to
which the said work shall be performed, completed, paid for and subsequently
maintained.

ARTICLE I

IN CONSIDERATION of the covenants of the State herein contained and
the faithful performance thereof, the City agrees:

1. To pick up at the Highway Department Yard, Globe, and deliver to the site of the work all materials, equipment, and tools necessary for the Traffic Signal Installation.
2. To provide and set aside sufficient funds to defray the City's share of the installation cost of the work.

3. To install in a good and workmanlike manner, and in accordance with the Arizona Highway Department Traffic Signal Installation Standards, General Specifications for Electric Traffic Signal and Highway Lighting Systems (1960) and Traffic Control Manual for Construction and Maintenance, incorporated herein by reference, and the plans dated March, 1963, and designated project number Non F-022-3-507, which plans are made a part hereof and incorporated by reference, all the electrical materials and apparatus necessary for a two-phase, full-actuated traffic signal installation at the aforementioned intersection. Work shall include all necessary excavation, backfill, pavement and sidewalk replacement as necessary, concrete work, and painting of signal equipment as required and as specified in the above publications.

4. To return all unused materials to the State upon completion of the work.

5. To furnish all labor, tools, and equipment necessary to replace broken or defective materials and apparatus, and when deemed necessary and with the approval of the State, to install additional apparatus as may be required; all equipment and apparatus, whether replacements or additions, to be State furnished; maintenance to continue until such time as, by mutual agreement, it is no longer necessary or desirable.

6. In the event of any future City construction projects involving the above-mentioned intersection, the project plans shall include all details for the relocation of any or all signal equipment and indicate such locations and shall be submitted to the Traffic Civil Engineer of the State for approval. All such costs for this work shall be at the City's expense.

7. That any requests for modifications of traffic controls at this intersection shall be based on and supported by traffic studies.

8. To advise the State or its authorized agent by the most expedient means available of any malfunctioning of the traffic signals; notification shall include sufficient information for preliminary malfunction diagnosis by the State.

9. To provide and set aside each year sufficient funds necessary for the complete maintenance and operation of these traffic signals, including:

- (a) Furnishing of electricity
- (b) Repainting on a once-every-two-years basis
- (c) Cleaning and relamping on a semi-annual basis

ARTICLE II

IN CONSIDERATION of the covenants herein contained and the faithful performance thereof, the State agrees:

1. To furnish, as needed, all electrical materials, equipment, and apparatus necessary for the traffic signal system.
2. To furnish and provide inspection during installation and engineering consultation as may be required during construction and maintenance of this intersection at no expense to the City.
3. In future State construction projects involving the above-mentioned intersection, the project plan shall include all details for the relocation of any or all signal equipment and such plans will be submitted to the City for its approval. All costs of such work shall be included and paid for under the construction project by the State.
4. To furnish and deliver replacement and broken or defective materials and apparatus, and when deemed necessary, additional apparatus as may be required, based on future traffic studies.

ARTICLE III

IN CONSIDERATION, of the premises it is mutually agreed:

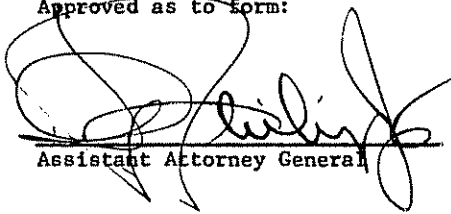

It is specifically understood and agreed that the State is bound by this agreement to furnish certain materials and apparatus as hereinbefore stated, and that the City, in the installation or maintenance of the traffic signals, and the work incidental thereto, shall use every precaution to safeguard the person and property of the traveling public and shall save harmless the State from all suits, actions, or claims of any character brought on account of any injury or damage sustained in consequence of any neglect in safeguarding the work.

IN WITNESS WHEREOF, the parties hereto have executed this

agreement the day and year first written above.
